COMMISSIONER OF PATENTS AND TRADEMARKS
Washington DC 20231

Dear Sir:

RE: United States Patent Application 09/905,179
Douglas A. Staley et al.
System and method for spacecraft attitude control

We enclose copies of the following:

- > filing receipt for application number 09/905,179, our docket 003/1US-CIP, mailed August 23, 2001;
- > an updated filing receipt for application 09/905,179, our docket 003/1US-CIP, dated November 19, 2001;
- > a Notice to File Missing Parts of Non-Provisional Application in application 09/905,179, dated August 23, 2001;
- > a postcard receipt confirming receipt by the Patent Office of the missing parts required by the Notice of Missing Parts dated August 23, 2001;
- > a filing receipt for application number 09/996,060, our docket 003/1US-CIP, dated February 21, 2002;
- > a Notice to File Missing Parts of Non-Provisional Application for application 09/996,060, our docket 003/1US-CIP, dated February 21, 2002.

All of these documents relate to one application. Evidently a second application number has been applied to the application and the missing parts have not been attached to the new file.

Pending receipt of your confirmation, we will assume that the application correctly bears the application number 09/905,179 and that you have in that file all of the necessary parts that were missing when the application was originally filed. If this is not correct, and some corrective action needs to be taken on our part, please let us know. Otherwise, we look forward to receipt of your confirmation that the second application number 09/996,060 and the Notice to File Missing Parts in that application have been cancelled.

We look forward to having your early reply.

Yours very truly,

AIKINS, MACAULAY & THORVALDSON

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

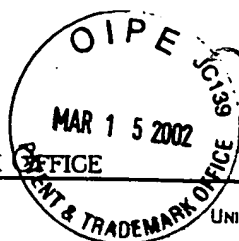

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
